

Roseaux Dansants and The Hearth invite you to:

The Ancestral Hearth

Deep Ecology workshop

The Work that Reconnects, by Joanna Macy

The Work that Reconnects, developed by Joanna Macy, is interactive, creative group-work, that serves to deepen our connectedness with Life, by drawing upon the spiritual and psychological resources we need to face and respond to global issues.

This process transforms the feeling of powerlessness that we may experience about the state of our world. We emerge from this process empowered, reconnected to ourselves, to others, and the living Earth... able to tap into a deeper source of energy, joy, and purpose in life.

With Claire Carré & Zsanna Sebesteny

Friday 18th August to Sunday 20th August 2023
